The screenshot shows the IBM Cloud Object Storage creation interface. The browser address bar displays 'cloud.ibm.com/objectstorage/create'. The page header includes the IBM Cloud logo, a search bar, and navigation links for Catalog, Manage, and the user account 'vaishnavi nesam's Acc...'. The main content area is titled 'Cloud Object Storage' with a sub-header 'Author: IBM • Date of last update: 2022-07-06 7:49 PM • Docs • API docs'. Below this, there are two tabs: 'Create' (active) and 'About'. The 'Create' tab is divided into two sections: 'Choose an Infrastructure' and 'Select a pricing plan'. Under 'Choose an Infrastructure', there are two options: 'IBM Cloud' (selected, with a checkmark icon) and 'Satellite'. The 'IBM Cloud' option describes creating, managing, and accessing storage in globally available data center locations. The 'Satellite' option describes utilizing infrastructure from on-premise data centers. Under 'Select a pricing plan', there is a note: 'Displayed prices do not include tax. Monthly prices shown are for country or region: India'. On the right side, a 'Summary' panel shows the service name 'Cloud Object Storage', the plan 'Free', and the resource group 'Default'. At the bottom of the summary panel, there are buttons for 'Create' and 'Add to estimate', and a link for 'View terms'.

Choose an Infrastructure

IBM Cloud

Create, manage, and access your storage in globally available data center locations. Public cloud environments are designed for high durability, resiliency and security. IBM-managed infrastructure automatically scales to businesses needs.

Satellite

Utilize infrastructure from on-premise data centers, at other cloud providers, or in edge networks as a Satellite location to IBM Cloud. Deploy, manage and control app workloads with IBM Cloud Object Storage on client-managed infrastructure.
